WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The purpose of this research study is to learn more about how teens and young adults on the autism spectrum and their parents feel and make decisions about transportation, including driving.

WHO CAN BE A PART OF THIS STUDY?

This study is open to autistic teens and young adults ages 16 – 24 and a parent.

WHAT WILL PARTICIPANTS BE ASKED TO DO?

Participants will be invited for an interview, to be conducted in person or remotely, where they will be asked about their experiences, perspectives, and decisions regarding transportation and the driving. They will receive compensation for their participation.

WHAT ARE THE BENEFITS?

There are no direct benefits to participants. The information collected in this study may benefit future generations of young drivers and their families.

I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more, please contact our study team at autismmetastudy@email.chop.edu or 888-535-CIRP.
